Profile

Full Stack Developer focused on building responsive web applications with React and Django. Hands-on with real project work in trainee and internship environments, including feature development for a live hiring platform workflow. Seeking full-time opportunities in Python Full Stack / React + Django roles.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React
- **Backend:** Python, Java, C++, C, Django, FastAPI, REST API Development
- **Database:** MySQL, PostgreSQL, SQLite
- **Tools & Workflow:** Git, GitHub, Linux CLI, Postman, VS Code
- **Core Concepts:** CRUD Design, Authentication, Role-Based Access, API Integration

Experience

- **Full Stack Developer Intern**, Gleamator Technologies Feb 2026–Present
 - Developing and maintaining web modules using React and Django for internal and client-facing workflows.
 - Building API-connected UI features, debugging production-like issues, and improving code quality through iterative updates.
 - Collaborating in project-based development cycles with mentors and peers during ongoing internship delivery.

Education

- **B.E., Computer Science & Engineering**, The Oxford College of Engineering, Bengaluru
Expected Jan 2026 | GPA: 7.9
- **Class XII (PUC)**, Narayana PU College, Bengaluru
Jul 2022 | 75%
- **Class X (ICSE)**, Lawrence High School, Bengaluru
Feb 2020 | 70%

Projects

- **Highrr Employer Portal – Feature Development for Acaders** 2026
Full Stack Project | React, FastAPI, PostgreSQL
 - Contributed to a job tracking portal where features were developed for Acaders training workflows and aligned for adoption in the main Highrr platform (highrr.com).
 - Worked on modules including authentication, job/application flow, and recruiter pipeline actions.
 - Implemented and tested REST endpoints and integrated frontend screens with backend APIs.
- **Student Management Portal (Internship Project)** 2026
Full Stack Project | Django, React, SQLite/PostgreSQL
 - Built a role-based campus portal supporting Admin, Teacher, and Student workflows with secure login.
 - Developed APIs and UI pages for student records, marks, attendance, notices, events, and dashboard analytics.
 - Implemented CRUD operations, filtering/export flows, and academic data handling in an internship setting.

Certifications

- **Google Cybersecurity Professional Certificate (Coursera)** Dec 2024

Software & Tools

- **OS & IDEs:** Linux CLI, Windows, Visual Studio Code
- **Databases:** MySQL, PostgreSQL, SQLite
- **Version Control:** Git, GitHub
- **API & Testing:** Postman, JSON/REST workflows
- **Build & Runtime:** npm, pip, virtualenv

Workshops & Seminars

- Participated in project reviews and technical sessions focused on full-stack development and deployment workflows.
- Practiced interview-focused DSA/problem-solving and project walkthrough communication.

Languages

English, Hindi, Telugu, Kannada, Tamil

Interests

Building practical web products, backend API design, UI problem-solving, and continuous skill development.
